FP/ByW/BrW Number	Location	Description of Action	Date & Ref. Number if Reported	Follow-Up
FP1 short	N34/EC. (around Bombose Frm bldngs.Across lane.Diag across Westwinds gdn).	Blocked off by landowner.		
FP2 short	N34/EC. (Lft. off Lam. Hill. Rt. of Bmbse.Lane.Gateway only)	Checked and cleared as necessary by fellow councillor.		
FP3 short	N34/EC. (Lft. off Lam. Hill. Lft. of Bmbse.Lane.	Blocked off by landowner.		
FP5 long	S34/C-D. (boardwalk/copse/tree lane to Bombose Lane)	Still waterlogged just past Ferrier's Farm – land owners were going to sort out spring, higher up so it didn't get so sodden, but I assume nothing has be done.		
FP7 long	N34/ED. Lamarsh track to halfway up hill twds rail line)	All good. Tree area at kissing gate, cut back as necessary.		
FP8 med	S34/WD. (Ferrier's Lane wooden bridge, up to Colne Rd)	Bridge area and gate at top, okay but will need trimming soon.		
FP11 short	N33/EE. (Bures Mill. Bridge & Esx side of weir)	Some nettles starting to take over. Trimmed back for now.		
FP12 short	N33/EE. (Bures Mill to Colch Rd)			
FP13 med	S33/WB. (N. of Polstead's Fm. At W. end of FP14)			
FP14 med+	S33/acrossB. (Bttm. of ByW 15.Thru' Rvnsfld. fmyard.to Plstd's Fm).	Crops in field but track all okay. I believe most people walk along the track anyway, rather than diagonally across the field.	Still no action to replace wobbly stile with gate. This is in hand.	
ByW15 med-long	S34/EB. (Horne's Grn. down to Rvnsfld.Fm)	All good.		
FP16	33/C-D. (Colne Rd.track to Btlr's.Fm/in

med-long	front of barns.Left after vineyard).			
FP17 med-long	N32/C .(Wood Ctting. to Lwr.Jnn's, & to brook)			
FP18 med-long	33/D . (SW of Baker's Hall down to Hobb's Well & tree tunnel/Plantation)			
BrW19 short-med	S33/WD . (broken concrete track off Bkr's Hall track, to top of Craig's Lane)			
FP20 med	N32/D .(contntn. Of Craig's Lane, past Sptpnny. Fm. & Villy.Grn.Fm.)			
FP21 med	33/D-SE . (Master Farm down to adjoin FP31)	Staff at Master Farm have very kindly taken and placed three pallets over very wet, muddy area again, for me. I have retrieved the chunky wooden sign that had been thrown into the ditch. Replaced back into its correct position.		
BrW22 med+	S34/W-ED .(Ferrier's Lane;Lam.Hill – Colne Rd.)	All okay.		
FP23 short	S33/D .(Hobb's Well up to Craig's Lane)			
ByW25 med	N32/C .(far end of Baker's Hall concrete track, up to Broad Oakes, to Colne Rd)			
FP27 short	N32/WB .(MoP tend to use concrete track & not diag. across fld. FP signs either end do need to be kept clear though)			
FP28 short	32/WB .(across corner of farm fld! Top & bttm. gates)	Cleared growth at both gates again. Wobbly stile still unsafe and gates have a very fiddly chain and clip to deal with. I believe most walkers use the narrow road rather than this route due to how fiddly it is to access.		
FP29 short	S32/WB .(Opp. Rye Fm./wooden steps,sign,railing only)	Cleared steps and rail area.		
FP30 short-med	S34/ED . (side of Tenter Fld. down to Colch.Rd.)

FP33 short-med	33/E. (Left of Hall Rd. up to Mnt Bures crossing)	Phillips Path trimmed as necessary. Bottom end, adjoining Hall Rd, unsafe and vehicles have made the verge 'furrowed' / uneven for pedestrians to safely walk on.	Currently trying to rectify. No road lining at the bottom of Hall Rd. has also been reported.
